

Ahmad Mustafa

Product Designer & Design Engineer

Rawalpindi, PK | ahmadgill8620@gmail.com | +92 309 8620230 | visuals-by-ahmad.figma.site | linkedin.com/in/ahmadmustafa098620

SUMMARY

Product designer and design engineer who works across both sides of a product: the interface and the code that makes it real. I build **centralized design systems**, turn high level requirements into **production ready specs**, and build the small tools that remove friction from the work.

EDUCATION

PMAS Arid Agriculture University

Rawalpindi, Pakistan

B.S. | Computer Science (GPA: 3.63)

Expected 2027

Related Coursework: **Artificial Intelligence, HCI, and Graphics (A+ Grade)**. Studied alongside full time design work, keeping theory close to real products.

EXPERIENCE

Pakistan National Council of the Arts (PNCA)

Islamabad, Pakistan

Creative Intern, Visual Strategy

Summer 2026

- Curated physical **exhibition layouts** and managed public facing visual communication under **national standards**.
- Moved **digital precision** into real print and environmental constraints.

CodeCelix

Remote

UI/UX Team Lead & Product Designer

Sept 2025 – January 2026

- Lead **visual strategy and product architecture** across **web and mobile platforms**.
- Build and maintain **centralized Figma design systems**, cutting **design drift** and speeding up handoff.
- Translate high level requirements into **production ready specs** the team builds against directly.

National Incubation Center & Aridian Society

Jan 2024 – May 2026

Event Coordinator & Visual Lead

- Coordinated **staging, vendor logistics, and on-site flows** for startup launches.
- Designed **unified event identities** that aligned sponsor decks with physical venue signage.

SELECTED PRODUCTS & TOOLING

Desktop Buddy (Atlas companion)

September 2026

Software Engineer & Designer

- Custom **Python and PySide6** desktop app that unifies calendar and email into one **low latency hub**.

Brand Buddy

June 2026

Creator & Design Engineer | Figma Config Makethon 2026

- Infinite canvas utility with a **built in design assistant** that frames brand mockups automatically.

MindFlow

March 2026

System Architect & Designer | Figma Makethon

- **Node based workflow environment** where the interface itself responds and reacts to data states.

Chaudhary Collection

2024

Product Designer & Developer

- Mobile commerce app built **end to end** with **Flutter, Dart, and Firebase**, from wireframes to database.

SKILLS

Design: Figma, Framer, **Design Systems**, UX Architecture, Prototyping, Adobe Creative Suite

Engineering: Flutter, Dart, Python, PySide6, Firebase, Frontend, APIs, Git

Practice: Design tokens, Component logic, Handoff, Motion, Accessibility
